EAD  Environmental Agency Abu Dhabi
PPE  Personal Protective Equipment
SME  Subject Matter Expert
NOC  No Objection Certificate
RSP  Registered Service Provider
1. Introduction

This technical guideline provides permitting and licensing requirements for transportation, treatment and recycling facilities. The waste management permitting or licensing does not allow the entity to operate the facility unless all relevant permits or licenses from other authorities are obtained like, vehicle registration with UAE traffic department, Environmental Permit from Environmental Agency Abu Dhabi (EAD), Industrial License from Industrial Development Bureau (IDB) etc.

2. Requirements

2.1 Legal Requirements

Listed below are the main legislative requirements related to the hazardous waste within the Abu Dhabi Emirate. All the requirements listed within these documents shall be adhered to, however compliance with this document and those referenced within, shall ensure compliance with the requirements stated within the legal standards listed below:

(i) Federal Cabinet Resolution No. (39) of 2006 on Banning the Import and Production of Asbestos;

(ii) Federal Law No (24) for the year 1999 on the Protection and the Development of the Environment;

(iii) Federal Law No. (28) of 2001 Regarding the Establishment of the emirates authority for standards and Meteorology;

(iv) Federal Regulation for Handling Hazardous Materials, Hazardous Wastes and Medical Wastes, issued by Cabinet Decree No. 37 of 2001;

(v) Law No (21) for the year 2005 on Waste Management in the Emirate of Abu Dhabi;

(vii) Centre of Waste Management Board of Directors Decree No 1/2010 for Waste Tracking System;
(viii) Decree No 17 of 2008 Establishing the Centre of Waste Management – Abu Dhabi;
(x) The Trade Effluent Control Regulations, 2010; and
(xii) Recycled Water and Bio-solids Regulations 2010.

2.2 Permits and Licensing

Listed are the specific licensing and permitting requirements relevant to this technical guideline. The Waste Generator is required to ensure that all licensing and permitting requirements have been complied prior to commence any work.

a) Hazardous waste carriers / transporter:
   (i) To be approved by CWM-AD.

b) Hazardous waste Facilities:
   (i) To be approved by CWM-AD.

c) Testing Facilities:
   (i) All testing facility shall be approved for the purpose (Scope of accreditation) by Emirates Standardization and Metrology (ESMA) Authority.

3. Permits and Licensing Requirements for Transportation, Treatment and Disposal Facility

(I). This technical Guideline explains the licensing and permitting of transportation, treatment and disposal facility & submission of request or application in the Emirate of Abu Dhabi through the following CWM Customer Service offices:

Table 1: Customer Service Offices

1. This technical guidelines shall be applicable for Permits & Licensing of the following:
   A. Waste Transportation Permit
   B. Waste Treatment Facility Permit
   C. Waste Recycling Facility Permit

2. Registered Service Provider shall submit application along with all legal, administrative and technical documents to the Center of Waste management-Abu Dhabi through at any of the above mentioned offices in table 1.

3. Registered Service Provider shall submit the following technical documents along with the legal and administrative documents & application:

   **A. Waste Transportation Permit**
   a. Emergency Plan in case of Hazardous & Medical Waste transportation only
   b. Training Certificate of Driver & Operator by 3rd Party approved by AD EHS Center
   c. Lifting Equipment Test certificate by approved 3rd Party in case of Waste transportation vehicle equipped with lifting device.
d. Vehicle Fitness certificate by AD Police.

e. EHSMS Registration in case of Nominated Entity by SRA.

f. Waste Transportation ESP application for renewal will only be considered if the ESP has regularly submitted ‘Monthly ESP Register’ and ‘Manifestation’.

B. Waste Treatment & Recycling Facility Permit

a. Complete process

b. Operation Manual

c. By products details

d. Waste disposal Option

e. EHSMS Registration

New Waste treatment & recycling facility licensing shall involve following 3 stages:

1. Initial Permitting based on technological assessment;

2. Onsite assessment before commissioning to ensure conformity to what has been permitted as ‘Initial Permit’, if need be CWM may ask for Certificate of Conformity (CoC); and

3. Final Permit for operation based on test certificates of waste (before and after) and other technical documents as required including calibration certificate, AD Civil Defence approval, wastewater discharge consent, Environment Permit from EAD, Industrial License from IDB, etc.

3.1 Waste Transportation Permit Requirements

1. RSP shall comply with CWM Technical Guideline No. 1, 2 & 3 for Hazardous and Medical Waste Transportation vehicle.

2. RSP shall comply with CWM Technical Guideline No. 9 for Waste Transportation Vehicle and GPS Requirements.
3. Mechanism for permits and licensing shall be complied as specified in Annexure 1 & 2 for new & renew, respectively.

4. Application template for waste transportation vehicle shall be used as specified in Annexure 7.

3.2 Waste Treatment Facility Permit Requirements

1. Mechanism for permits and licensing shall be complied as specified in Annexure 3 & 4 for new & renew, respectively;

2. The application for new treatment facility will be subject to a detailed technical evaluation of the technology of waste treatment;

3. Renewal applications will only be considered if detailed record of monthly submission of waste manifestation / treated waste laboratory analysis, calibration certificates is submitted;

4. Application template for waste treatment facility shall be used as specified in Annexure 8.

3.3 Waste Recycling Facility Permit Requirements

1. Mechanism for permits and licensing shall be complied as specified in Annexure 5 & 6 for new & renew, respectively.

2. Renewal applications will only be considered if detailed record of monthly submission of waste manifestation / treated waste laboratory analysis, calibration certificates is submitted.

3. Application template for waste recycling facility shall be used as specified in Annexure 9.
4. Annexures

Annexure 1: Mechanism for Waste Transportation Permit (NEW)
Annexure 2: Mechanism for Waste Transportation Permit (RENEW)
Annexure 3: Mechanism for Waste Treatment Facility Permit (NEW)
Annexure 4: Mechanism for Waste Treatment Facility Permit (RENEW)
Annexure 5: Mechanism for Waste Recycling Facility Permit (NEW)
Annexure 6: Mechanism for Waste Recycling Facility Permit (RENEW)
Annexure 7: Application for Waste Transportation Permit
Annexure 8: Application for Waste Treatment Facility Permit
Annexure 9: Application for Waste Recycling Facility Permit
